

Purpose:

As a company operating in the renewable energy sector, Solwave PV Technology is committed to minimizing its environmental footprint and promoting sustainable practices. This policy reflects our dedication to protecting the environment while delivering high-quality solar plant operation and maintenance services.

Scope:

This policy applies to all Solwave PV Technology operations, employees, contractors, and stakeholders involved in the company's activities.

Policy Statement:

Solwave PV Technology is committed to:

1. Environmental Compliance

- Adhering to all relevant environmental laws, regulations, and industry standards.
- Regularly updating practices to align with changes in environmental legislation.

2. Pollution Prevention

- Reducing emissions, waste, and pollutants generated by operations.
- Implementing measures to prevent spills, leaks, and contamination of air, water, and soil.

3. Resource Efficiency

- Promoting efficient use of energy, water, and other natural resources in all company activities.
- Encouraging recycling and reusing materials wherever feasible.

4. Sustainable Practices

- Designing and maintaining solar systems to maximize environmental benefits and minimize lifecycle impacts.
- Selecting environmentally friendly materials and processes in operations and maintenance activities.

5. Training and Awareness

- Educating employees and contractors on environmental responsibilities, including:
 - Proper waste disposal and recycling.
 - Energy conservation measures.
- Encouraging innovative ideas to improve environmental performance.

6. Biodiversity Protection

- Ensuring that solar plant operations consider and mitigate impacts on local ecosystems.
- Working to restore and protect natural habitats affected by company activities.

7. Continuous Improvement

- Regularly assessing environmental performance and setting measurable goals for improvement.
- Conducting audits and reviews to identify areas for enhancement.

Employee and Stakeholder Responsibilities:

- Employees and contractors must comply with this policy and participate in environmental initiatives.
- Management will provide resources and leadership to implement and monitor this policy effectively.

Communication and Implementation of the Policy:

- This Policy will be communicated to key stakeholders through display at workplaces, prominent locations of Solwave PV Technology and its subsidiaries, and through interactive sessions for internal stakeholders such as employees and external stakeholders such as contractors and sub-contractors of Solwave PV Technology and its subsidiaries.
